

## B3150 BROOM TRACTOR COMBO

### OUR MOST POPULAR BROOM.

The compact **NEILO** B3150 Broom is the ultimate combination of performance and reliability. Its large, high-performance 1.75m Road Broom is hydraulically operated from the air-conditioned / heated Cab.

The innovative design allows you to sweep at the exact positioning you require with minimal coning and an even sweep. Its unique spring-activated contour follows the lateral pivot, which substantially reduces brush wear & coning.

Perform quick brush replacements onsite, needing only two spanners and a pair of hands.

A 'Top Spin' pre-cleaner prevents dust from entering the engine compartment. When used with the purpose-built Neilo brooms trailer, it can be quickly and safely moved between sites. A huge range of add-ons enable you to customise this broom to meet your site's safety and operational specifications.
