

M7040 ROP'S GRADER TRACTOR COMBO

THE MAINSTAY OF OUR GRADER RANGE.

The **NEILO** M7040 is a powerful 70HP Tractor, the ideal candidate for our 2.4m 8-way mid-mounted grading system.

The perfect machine for larger roadworks or site works. The ROP's can be fitted with a windscreen and plastic roof for sun protection, and the open-cab style allows for great visibility of your grading surface.

Including your desired laser or GPS control system will enable precision finishing. We are approved Leica dealers, so can assist with any of your Laser/GPS needs and our interface system is also compatible with other brands.

Add a 1.75m or 2.1m **NEILO** broom with a quick hitch for the ultimate in versatility. Get your site levelled, then sweep up when you're done, with the same machine!
